

Stainless Steel Hangers

L.C. Penner Co. offers a high quality **stainless steel product** for installation of tubing and pipe hangers. Penner's Stainless Steel Hangers (brackets) are used with injection molded inserts (sleeves) or rubber grommets. Hangers are designed for the support and stabilization of pipes and tubing. If you have any questions about this product or would like to place an order, please call L.C. Penner Company.

1) Black Rubber Grommets

- retainer knob holds tubing securely in place.
- easily renewed.
- easy to install.

2) P.V.C. Collar

- collar design holds tubing securely in place.
- split for easy application on existing pipelines.

1.) Tubing Hangers:

2.) Pipe Hangers:
